

# Kosovo mb energy solutions

Does Kosovo need a new energy sector?

Given this background, the Government of Kosovo has prioritized the modernization and improvement of the country's energy sector, and has asked its development partners, including the World Bank, European Commission, KfW, USAID, as well as other donors, for support and assistance.

Why is water important in Kosovo?

From renewable energy to hydropower to waste management, water is an inherent component of Kosovo's energy strategy and fundamental to the World Bank Group's energy engagement in the country. More...

Why did the World Bank not support the power plant in Kosovo?

Last updated in October 2018. Note: The World Bank announced on October 10, 2018 that it would not proceed with support for the power plant in Kosovo because we are required to support the least cost option and energy from renewable sources has now come below the cost of energy from coal.

How much power does Kosovo have?

More... Today, Kosovo's electricity operating capacity is about 900 MW, almost all of which comes from two antiquated coal-fired power plants, Kosovo A and Kosovo B. As the population grows, ongoing constraints on power will continue to increase.

What is the unemployment rate in Kosovo?

The overall unemployment rate is about 33 percent and unemployment for youth aged 15-24 years is about 60 percent. Job creation, therefore, is a major priority for the country. In order to boost employment, increase growth, reduce poverty, and improve people's lives, Kosovo needs affordable and reliable energy.

Kosovo lists energy (production, transmission, distribution, and storage) as critical infrastructure, the Government of Kosovo should draft a document, strategy, or action plan to address the development of resilient critical energy infrastructure in Kosovo. o Since the Government is drafting the National Plan on Energy and Climate

The Government of Kosovo's draft Energy Strategy prioritizes an ambitious vision for a just energy transition for the country between 2022-31. The Government of Kosovo envisions using market-based solutions, in the form of competitive auctions, to deliver new, renewable energy at affordable prices.

In an effort to tap these huge energy saving potentials, officials in Kosovo are now working with the World Bank Group to implement the Kosovo Energy Efficiency and Renewable Energy Project, a \$31 million project designed to reduce energy consumption and fossil fuel use in public buildings through energy efficiency and renewable energy investments.

By increasing the share and capacity of solar energy in power generation, the project will contribute to energy supply security, a faster green transition and economic growth in the region. Upon completion, the plant is ...

By increasing the share and capacity of solar energy in power generation, the project will contribute to energy supply security, a faster green transition and economic growth in the region. Upon completion, the plant is expected to produce around 169 GWh of electricity and displace 174 000 tonnes of CO2 a year on average.

In an effort to tap these huge energy saving potentials, officials in Kosovo are now working with the World Bank Group to implement the Kosovo Energy Efficiency and Renewable Energy Project, a \$31 million project ...

The Assembly of Kosovo approved the Energy Strategy of the Republic of Kosovo 2022-2031 on 8 March 2023. You can find the Strategy at the following link: [https://me.rks-gov /en/energy](https://me.rks-gov/en/energy) ...
