

Lesotho power back up solutions

With support from PREO, 1PWR was able to enhance local manufacturing capacity to deliver solar PV trackers, smart meters, and mini-grid Power houses to mini-grid electrification projects underway in Lesotho, thereby reducing the country's reliance on panel imports, while supporting local value creation and employment.

The project aims to pilot Independent Power Producer (IPP) mini-grid technology in Lesotho, and demonstrate that they can be a superior sustainable solution for rural energy access. The successful mini-grid model that project partner Gram Oorja has applied in over 60 remote rural communities in India will be adapted to create an innovative ...
