

Lundsby renewable solutions a s Spain

What is lundsby renewable solutions?

Lundsby Renewable Solutions is more than just a name. It is our promise that - together with you - we will make both ends of green transition meet and contribute to a future, where more will live in a greener way on our blue planet. A future, where we turn natural resources into sustainable energy. And this future...is right now!

Where is lundsby constructing a biogas plant?

Lundsby is currently constructing a biogas plant for Gasum i Gästene, Sweden, that becomes operational in early 2025. It will be capable of covering the annual energy consumption for heating and electricity for approx. 6,000 households, or the annual consumption for... At full capacity, the biogas plant will be one of the largest plants in Europe.

Why should you choose lundsby?

Lundsby provides a reliable plant and also helps you to commission the plant well and safely. The good cooperation with our customers and partners ensures that we keep our know-how updated, so we can always develop and optimise our solutions. To your benefit and to the benefit of your economy and the green transition.

How can lundsby help you in the green transition?

If you wish to play an active role in the green transition by using biomass from agriculture, households, industry, etc., we help you make all ends meet and turn the idea into reality. Lundsby has more than 25 years of experience with developing and providing efficient biogas plants.

As a leader in biogas plant development, Lundsby specializes in converting organic waste into renewable biogas, significantly reducing CO₂ emissions. Our projects, ranging from small local expansions to large industrial setups, prioritize stability, flexibility, and efficiency.

En 2022 cambiaron el nombre a Lundsby Renewable Solutions. Una de las razones es la intención de explotar al máximo el potencial internacional de la compañía. Lundsby tiene más de 25 años de experiencia en el diseño y la construcción de plantas de biogás llave en mano.

Lundsby is one of Denmark's major biogas developers when it comes to EPC Turnkey projects. We help our customers convert many thousands of tons of biomass into green, CO₂-neutral energy. Our purpose is to contribute to the green transition and transform nature's resources into sustainable energy, so more people can live greener on our blue ...
