# Make a solar bracket with wooden boards

#### How do you mount solar panels?

Once the frame was in place, mounting the solar panels was a breeze (eh... almost as I was alone mounting it and each panel weighs in at about 18kg each). I do recommend having an extra pair of hands for this step. Panels are screwed top+bottom and I quite easily mounted them by balancing and resteing them on the bottom part of the frame.

### What size solar panel should I mount on a wall?

Wall mounts are best for small solar panels. My 20 wattpanel was a perfect size and weight for the wall mount we designed. Anything bigger -- say, a 100 watt solar panel -- and mounting it on the wall would've been much more of a challenge. 1. On the Roof

#### How do I make a solar stand?

Decide how wide to make your stand. Record this number. Tip: You can see the grid lines of the solar cells on the back of some panels. You can use these as guidelines when deciding how wide to make your stand. For instance, I chose to make mine three grid lines from the frame on each side.

#### How do you attach a solar panel to a wall?

Mark where you want to attach your triangle brackets to the wall. Use a tape measure to make sure they're installed as far apart as your solar panel is wide. Screw the brackets to the wall, using a level to make sure they're vertical. I used two screws per bracket -- one at the top and bottom of the vertical side. Here's a video of this step:

#### Can a 80W solar panel be mounted on a wall?

The old 80W panel is still on the wall. Going from 80W to 1.2kW is the plan Once the frame was in place, mounting the solar panels was a breeze (eh... almost as I was alone mounting it and each panel weighs in at about 18kg each). I do recommend having an extra pair of hands for this step.

#### Where should a solar panel be placed?

Sometimes the best place to put a panel is on the wall. Here's a simple solar wall mount that's great for small panels. H/T to Guns and Gear Network whose video gave me the idea for this PVC solar panel stand. Alex Beale is the founder and owner of Footprint Hero.
