How to buy a solar system on Sint Maarten?

Many banks already offer so-called "green loans", financing the purchase of your solar system on Sint Maarten for a monthly installment that may be even lower than the monthly price you pay for electricity now. Evendo the calculation below is as up to date as possible, it is still an indication.

How much does electricity cost on Sint Maarten?

On Sint Maarten, the costs per Kwh calculated in 2012 is ANG 0,73. If you are a home owner, commercial property owner or owner of an industrial building on Sint Maarten, please have a look at your electricity bills and calculate the average amount of Kwh you use and the money you spend on electricity per year.

Can you build your own solar array?

Build-your-own from scratch solar array requires advanced technical knowledge and expertise that you may not have. DIY solar home kits are usually designed to work off-grid for small projects. Today, solar kits that allow you to directly tie into the public utility grid are becoming available, and may allow you to power your entire home.

It isn't just the star that pulls on the planets: the planets pull on each other, and the star too. This game simulates a solar system by adding up all the pulling for a single moment in time. It then calculates the resulting tug on each object, moves them, and repeats. By doing that many times a second you can see how your solar system evolves.
