

Masdar industrial alternative energy co Sri Lanka

Why should you invest in Masdar?

Over the past 17 years, Masdar has become one of the world's largest renewable energy investors and drivers of the energy transition. Our momentum will see us accelerate global clean energy growth, expand our renewable energy footprint, and play a vital role in delivering the UAE's Net Zero by 2050 strategic initiative.

What will Masdar do for ADNOC?

Masdar's ambitious growth plans target at least 100 gigawatts of renewable generation capacity. Masdar is an important pillar of ADNOC's strategy to accelerate its net zero ambition to 2045 by expanding clean energy production, unlocking new opportunities for industrial development and driving decarbonization.

Why is Masdar so successful?

Masdar's success has been part of that mainstreaming process. Overall Masdar has proved itself a strong proponent of clean energy and the overall energy transition, investing against the status quo in the knowledge and understanding that dependence on fossil fuel could not be the future for Abu Dhabi or the UAE.

Why is Masdar a strategic investment company?

Our approach is of essential strategic importance for our nation." Masdar, a subsidiary of Abu Dhabi's state-owned Mubadala Investment Company, was set up to fulfil what Al Ramahi calls, "the strategic visionary thinking of the leadership, to diversify from our dependence on fossil fuels economy in order to generate power and water."

Is Masdar a sustainable company?

The report reveals Masdar's score of 2 and an entity score of 71 from Sustainable Fitch, a leading sustainability rating agency, reflecting the company's strong ESG performance and the green credentials of its assets.

How has Masdar impacted global sustainability?

With several significant projects launched in 2023, Masdar's expanding portfolio has had a marked impact on global sustainability. Notable projects in both new and existing markets, including Indonesia, Saudi Arabia, the UAE, Egypt, and Azerbaijan, either commenced operations or were formalized through agreements.

In 2023, Masdar expanded its clean energy portfolio and advanced pipeline by 58 percent to reach 31.5 GW, generating over 26,700 GWh of clean energy and avoiding 14 million tons of CO₂e. This marks an increase from 10 million tons the previous year, equivalent to removing nearly 870,000 vehicles from the roads.

Now, with the completion of Phase II, an additional 6 MW brings MAS' total solar generation capacity to a striking 23.7 MW. Breaking its own previous national record for solar power generation, MAS is solidifying its position as a company transforming Sri Lanka's renewable energy landscape.
