

The Megatank Lithium Battery 960WH (75AH) LiFePO₄ offers high-capacity energy storage and long-lasting performance, designed to replace traditional lead-acid batteries. With its lithium iron phosphate technology, it ensures enhanced safety, efficiency, and up to 3000 charge cycles.

MegaTank Wall mounted Lithium Battery. Nominal voltage [V]: 51.2V; Nominal capacity [Wh]: 5120Wh; Available capacity [Wh]: Max. 4864Wh; Discharge voltage [V]: 44.8V - 55.2V; Charge voltage: 54.7V - 55.2V; Charge mode: CC ...

Introducing the Megatank GL48100 (51.2V 5kWh) Lithium Battery, a cutting-edge energy storage solution designed for efficiency, reliability, and scalability. This advanced lithium-ion battery is perfect for solar energy systems, backup power applications, and off-grid setups, providing a robust and sustainable way to harness and store energy.

The Megatank 5kWh Lithium Battery GL48100 series features a scalable, modular battery with a specially designed mounting bracket for both floor and wall mounts to allow for quick, easy installation. Its elegant design and attractive outer case make it the perfect addition to a home or office back-up or solar (PV) installation.

Megatank 5kwh lithium battery (GL48100 Series) seamlessly integrates with leading inverter brands. By linking this battery to your solar system, you can store surplus energy generated during daylight hours and utilize it during periods of ...

Introducing the Megatank GL48100 (51.2V 5kWh) Lithium Battery, a cutting-edge energy storage solution designed for efficiency, reliability, and scalability. This advanced lithium-ion battery is perfect for solar energy systems, backup ...

Megatank 51.2 Volts Lithium Battery Features: Voltage: 51.2V nominal voltage. Capacity: 100Ah (Ampere-hours) or 5.12 kWh (kilowatt-hours). Lithium Iron Phosphate (LiFePO₄): Known for enhanced safety and thermal stability. Cycle Life: Up to 6,000 charge and discharge cycles at 80% depth of discharge (DoD). Temperature Range:

FMIDC is now an authorized distributor of Megatank batteries, which comply with IEC62619, CE, and UN38.3 standards, ensuring their reliability as a backup power solution. These batteries are ideal for various industrial applications, including telecommunications, backup power, off-grid systems, and energy storage.

This 5kwh lithium battery belongs to Megatank GL48100 series that showcases an impressive capacity of 5.12 kilowatt-hours (kWh), delivering abundant energy storage suitable for various residential and commercial

Megatank battery Turkmenistan

purposes.

The Megatank 5kWh Lithium Battery GL48100 series features a scalable, modular battery with a specially designed mounting bracket for both floor and wall mounts to allow for quick, easy installation. Its elegant design and attractive ...

The Megatank Lithium Battery 960WH (75AH) LiFePO4 offers high-capacity energy storage and long-lasting performance, designed to replace traditional lead-acid batteries. With its lithium ...

Megatank 5kwh lithium battery (GL48100 Series) seamlessly integrates with leading inverter brands. By linking this battery to your solar system, you can store surplus energy generated during daylight hours and utilize it during periods of diminished sunlight or at night.
