

Servoday Hydraulic Moving Floor Containerized System provides flexible and efficient storage solutions for biomass feedstock in Monaco. It features automated operation to streamline material handling and enhance overall efficiency in pellet plants.

Modula is a leading manufacturer of automated storage solutions, designed to optimize space and improve picking and storage operations for any industrial sector or environment. Our vertical lift module (VLM) line maximizes the storage potential of high-ceiling facilities, securing items in enclosed units up to 54 feet tall.

Modula's American-made automated storage and retrieval systems transform your material handling - dramatically boosting productivity and accuracy, reducing storage space requirements, and enhancing worker safety and job satisfaction.

The roots of AS/RS technology trace back to the 1960s, a period marked by a burgeoning need for faster, more efficient storage solutions amidst the wave of industrialization. Unlike the slow-evolving traditional AS/RS technologies of the past decades, the recent emergence of robotic providers has brought innovative solutions tailored for today ...

Automated management of 1.5 million paper bags a day. Finieco, a manufacturer of paper packaging solutions, has equipped its warehouse in Portugal with the automatic Pallet Shuttle system by Mecalux. This storage solution, serviced by a stacker crane, streamlines goods inflows and outflows. [Read more](#)

High-performance storage solutions for your pallets and containers. We design future-proof and scalable automated multichannel storage system solutions that are precisely tailored to your specific industry, product and company requirements and can grow with your needs.

FKI Logistex is a leader in automated storage and retrieval solutions. With over 50 years of experience in engineering, design, integration and maintenance, and hundreds of installations worldwide, FKI Logistex supports many of today's most productive and efficient automated material handling operations.
