Which AC systems does bboxx offer?

Bboxx also offers larger solar systems that have close to 2kW of solar panels, 3kVA inverters, and 5.1 kWh of lithium battery storage. These systems are quite popular with small businesses and homes as replacements for small fossil-powered generators. Here are two examples of larger AC systems that Bboxx offers in markets such as Nigeria:

How much power does bboxx produce a day?

"We have installed 14.4MW,the average installation is below 40Wp per Household,we produce about 40MWh per day," says Bboxx. For the stationary storage battery packs,Bboxx works with several battery cell suppliers and then assembles the battery packs in China.

Does bboxx have a USSD platform?

To make it easier for everyone to access information such as the energy generation and consumption data,Bboxx has a USSD platform. USSD platforms are more inclusive,as historically the majority of customers only had access to feature phones that didn't support mobile apps.
