

Mozambique solar panel on loan

A EUR40-million loan was secured by Neoen through Proparco - the private sector financing division of the French Development Agency - for the construction of the project. The solar power plant is set to diversify the southern African country's energy mix while increasing domestic renewable generation capacity.

The U.S. Trade and Development Agency (USTDA) has awarded a grant to WHN Solar, for a feasibility study to assess the viability of a solar photovoltaic (PV) plant of up to 100MW in Mozambique. The grant was signed off last Friday by Ambassador Dean Pittman, U.S. Ambassador to Mozambique, on behalf of USTDA along with the CEO of WHN Solar ...

The UNDP has opened a tender for the implementation of solar photovoltaic (PV) installations at 17 health facilities in Mozambique. The 17 sites are divided into three lots that are located across northern, central and southern regions of the country.

ARENE, Mozambique's energy regulatory body, has revealed its choice of four preferred bidders for the development of two 30MW solar PV projects. These projects were tendered to Independent Power Producers (IPPs) in November of the previous year and encompass the complete development, financing, design, construction, operation, and ...

A EUR40-million loan was secured by Neoen through Proparco - the private sector financing division of the French Development Agency - for the construction of the project. The solar power plant is set to diversify the ...

This report looks into the investments opportunities for solar deployment in Mozambique. The report focuses on the energy context, relevant actors and the regulatory framework for investments in renewables.

This initiative aims to support decentralized utility solar photovoltaic (PV) and battery energy storage system (BESS) projects, to be implemented by Independent Power Producers (IPP) across several provinces.

Last week, the administrative post of Matchedje, Sanga district, in Niassa province, joined the list of solar panel-based photovoltaic mini-grids to come into operation in the country. Isália Dimene, head of the Quality and Environment Division at the National Energy Fund (FUNAE), gave the overview of that project which cost the state coffers ...

Ncondezi Energy Limited has announced the completion of the US \$500,000 bridge loan between its wholly owned renewables subsidiary, Ncondezi Green Power and certain Company Directors to finance the construction of its Commercial and Industrial (C& I) 400kWp solar PV plus 912kWh battery storage project located in Mozambique.
