Who is Myanmar Solar power trading?

Myanmar Solar Power Trading Co.,Ltd is established in 2011 and we are one of the leading full-service providers for C & I projects, residential, industrial and large scale solar projects in Myanmar. From a single point of contact, we provide solar PV designs, calculations, consultations, installations and repair and maintenance services as well.

Which solar power plants are being built in Myanmar?

The three solar power plants, in Aungmyethar, Nyaungpingyi, and Ohntaw, have a total capacity of 100MW and will help provide low-cost sustainable power to Myanmar's electricity grid. On 30 December 2020, Shwe Taung obtained MIC approvals for the Nyaungpingyi and Aungmyethar power plants, where Shwe Taung holds 97% shareholding.

Does Myanmar have solar energy?

Levels vary widely across this geographically diverse Southeast Asian nation, but on the whole, Myanmar is endowed with an abundance of solar energy resource potential, an average solar irradiance of 4.5-5.1 kilowatt-hours per square meter per day (kWh/m²/day).

Can solar power help a disadvantaged population in Myanmar?

"Moreover, solar can help ensure a just energy transition for citizens affected by energy poverty... Furthermore, 75-85% of Myanmar's population lives within a 25-50-kilometer radius of high voltage power lines, which makes for ideal locations to develop medium- and large-scale solar projects," they noted.

Is solar energy gaining traction in Myanmar?

Solar energy is just beginning to gain some traction in Myanmar, a country that has been gradually opening up its economy and society to the world since 2011.

Will Myanmar adopt solar power systems in its buildings?

We expect that more commercial and industrial clients in Myanmar will adopt Solar Power systems in their buildings in the near future, and it is exciting to witness the country moving towards greener technology.
