Nari Energy (PTY) LTD is a 100% black women owned and a level 1 BEE contributor company. We recognise the need for reduced carbon-emissions. We focus on the manufacturing of bio-fuels (biodiesel, biogas and syngas). We ...

To drive meaningful progress and put mini-grids at the forefront of achieving Sustainable Development Goal 7 (SDG7) in Zambia, we advocate for a well-designed regulatory framework that fosters private sector investment. This White Paper outlines key policy recommendations aimed at creating an enabling environment for mini-grid development.

6 ???· Lusaka, 26th November 2024 - Zambia is grappling with an energy crisis intensified by the adverse impacts of climate change, particularly a prolonged drought. The country's heavy reliance on hydropower has heightened the severity of the situation, underscoring the need for diversified energy solutions. Decentralized energy systems - such as ...

Nava's subsidiary, Maamba Energy Limited (MEL) spearheads the operation of Zambia's most extensive coal mine. MEL not only supplies thermal grade coal to its power plant but also delivers high-grade coal to esteemed industrial consumers across the country.

This means that alternatives such as NAPSAs investment in Maamba, will go a long way in mitigating the power crisis and diversifying the country's energy mix. "Zambia is currently experiencing adverse drought weather conditions that have led to a huge reduction in the levels of water in the major rivers from which electricity is ...

2 ???· The 136 MW solar plant will supply clean energy to communities and businesses in Zambia,

helping to overcome the country's energy crisis. The issuance of this green bond is ...

President Hakainde Hichilema has transferred honorable Peter C.Kapala,MP to the Ministry of Fisheries and Livestock and honorable Makozo Chikote MP to the Ministry of Energy with immediate effect.

In the energy saving technology, in order to take the NIR-blocking effect, the Ag-doped transparent conductive oxide (TCO) is applied in the structure of energy-saving electrochromic glass. Electrochromic glass reduces energy consumption up to 20%, and often reduce the size of the HVAC system required for the building.

Nari Energy is an energy company established in 2019 to participate in the energy sector with a specific focus on fossil fuels and bio fuels. We focus on the manufacturing of bio-fuels providing energy consulting services across multiple engineering disciplines through our professional engineers. Nari Energy also recognises the global goal of reduction of carbon emissions and, ...
