Government records and notifications available for Catimor Energia Solar Eirl in Peru. See their past export from Nodisponible, a supplier based in China. Follow future shipping activity from Catimor Energia Solar Eirl.

The state-run Nepal Electricity Authority (NEA) is set to select six solar energy generation companies qualified technically and financially to supply grid-connected solar power of around 90 megawatts (MW).

Solar energy in Nepal presents a promising avenue to diversify the country's energy mix. Currently, Nepal's domestic electricity supply is almost entirely reliant on hydropower, which is susceptible to seasonal variations and the impacts of climate change, such as altered rainfall patterns and reduced snowmelt.

Along with other programs and projects, AEPC is executing a project "Promotion of Solar Energy in Rural and Semi-urban Regions of Nepal" with financial assistance from the Federal Government of Germany through KFW Development Bank.
