

In Seychelles, French developer Qair, has been selected to develop the largest floating solar power plant to be installed on saltwater in the world. The 5MW plant will be the ...

Seychelles is in the final stages of negotiation of two project agreements for the installation of a 5-megawatt photovoltaic panel in the Providence Lagoons, which will be the country's first independent power producer (IPP) project, said a top official.

French independent power producer (IPP) Qair plans to launch the installation of a 5.8-MW floating solar array in Seychelles in July, it said on Monday. The company, formerly known as Lucia Holding group, expects work on the project, to be mainly carried out by local companies, to take six months.

The project, launched by the Seychelles Ministry of Environment, Energy and Climate Change and the Seychelles Energy Commission, will be the first utility-scale, private-sector funded floating solar project in Africa, and aims to support the country's transition to renewable energy.

French renewable power developer Qair has signed a power purchase agreement (PPA) with Seychelles authorities for the construction of a floating solar power plant in the country. The 5.8 MWp future renewable energy ...

Under the PPA, Qair will develop, build and operate on the lagoon of Providence a 5.8 MWp floating solar plant to supply renewable energy to the Seychelles grid. The construction is scheduled to start in the fourth quarter of 2023.

In Seychelles, French developer Qair, has been selected to develop the largest floating solar power plant to be installed on saltwater in the world. The 5MW plant will be the first project led by an Independent Power Producer (IPP) in Seychelles.

Work on a floating solar farm in Seychelles is expected to begin this year, following the signing of three agreements for the project on Tuesday. Once completed, Seychelles will have built the world's largest salt-water floating solar plant.

Final talks are in progress for the government support agreement and power off-take deal for a 5-MW floating solar project by France's Qair in the Seychelles, the Seychelles New Agency (CNA) reports.
