

North American New York Solar Power Generation Scam

What is a solar energy scam?

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy efficiency. If you agree to the scammer's offer, it could cost you tens of thousands of dollars.

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

Is NY Solar Farms a scam?

NY Solar Farms is not a scam. It is one of the models out there to help the state reach its goal regarding renewables, which is 70% by 2030. There are several approaches out there and you are being solicited for one of them.

Should you choose a reputable solar energy company?

When temperatures rise, utility costs do, too. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver.

How do energy scams work?

They might also offer an "energy audit" to reduce your energy costs or guarantee huge rebates or incentives. From there, the scam can take several turns -- the "salesperson" may ask you to fill out forms with personal information or pay a deposit up front.

Should I buy solar panels in Western NY?

If you want solar and your home and finances can support it, having your own solar panels in Western NY might be more beneficial.
