

HAWKER news and updates. FLEXPAK™ BATTERY/CHARGER PAK - Plug-and-Play Power. HAWKER FLEXPAK™ Thin Plate Pure Lead battery/charger packs offer outstanding flexibility and ease of use that will change the way you work. This sealed battery/charger pack can be used when and where you need it most for exceptional performance.

SAFETY DATA SHEET. Our state-of-the-art manufacturing facilities feature the latest technology in water treatment, air pollution control devices, and revolutionary formation rooms equipped with ventilation systems that protect employees and the environment from harmful fumes.

At HAWKER®, we craft custom motive power battery and charger solutions for Class I, II, and III trucks to empower and enhance each customer's unique daily operations. We offer some of the broadest product range in the industry -- including traditional flooded lead acid, to Thin Plate Pure Lead (TPPL) and lithium batteries, high-frequency modular chargers, and data management ...

HAWKER provides the broadest motive power product range on the market - from traditional lead-acid to TPPL and lithium power. We apply experienced teams, new industry insights, patented processes, and proven technologies to craft a full power system that's not only solution-based, but adapts as your needs change.

Our Products. At HAWKER®, we craft custom hybrid motive power solutions for Class I, II, and III trucks to power customer's unique daily operations. We offer the broadest product range in the industry -- including traditional flooded lead acid, to Thin Plate Pure Lead (TPPL) and lithium batteries, high-frequency modular chargers, and data management tools and accessories - ...

As a single-source supplier, HAWKER is perfectly suited to provide a total motive power solution. By manufacturing both industrial batteries and chargers, HAWKER can perform an exclusive "Harness the Power" on-site assessment of your operations. We will study and analyze your processes, operational costs, productivity, electrical consumption and demand.

HAWKER® ENERGY-PLUS (TM) BATTERY - The Ultimate Power Source. When your operation depends on a heavy-duty battery--a battery that can stand up and deliver even under the most demanding applications--you can depend on the power of the HAWKER® ENERGY-PLUS(TM) flooded lead-acid battery.

Hawker Powersource, Inc. - At HAWKER®, we craft custom hybrid motive power solutions for Class I, II, and III trucks to power customer's unique daily operations. We offer the broadest product range in the industry - including traditional flooded lead acid, to Thin Plate Pure Lead (TPPL) and lithium batteries, high-frequency modular chargers, and data management tools ...

HAWKER &#174; - WHERE POWER AND DATA CONNECT. At HAWKER &#174;, we craft custom motive power battery and charger solutions for Class I, II, and III trucks to empower and enhance each customer's unique daily operations. We offer the broadest product range in the industry -- including traditional flooded lead acid, to Thin Plate Pure Lead (TPPL) and lithium batteries, ...

The HAWKER&#174; PTOTM MOD3 is a high-frequency, programmable-capacity, selectable DC voltage charger that provides an economical choice for charging. The HAWKER &#174; PTOTM MOD3 charger series offers Conventional, Opportunity, Cold Storage, Gel, and TPPL

HAWKER &#174; LIFETECH (TM) MOD1 and LIFETECH (TM) MOD1C modular, high-frequency smart chargers provide optimum charging, peak efficiency, maximum reliability, and nonstop power to meet the growing demands of our customers. The modular design of these chargers allows each individual power module to operate independently. Even if one module stops working, the ...

UP TO 20% MORE ENERGY: HAWKER &#174; ENERGY-PLUS(TM) delivers more active material than conventional batteries without an increase in tray size. LOWER OPERATING COSTS: The HAWKER &#174; ENERGY-PLUS(TM) battery offers extended run time. Less change outs means a reduction in spare batteries and chargers. And fewer batteries means less watering ...
