Will Oman invest in electric vehicle battery start-up 'our next energy'?

Reuters The Oman Investment Authority has invested in US-based electric vehicle battery start-up Our Next Energy (One). Oman's sovereign wealth fund also signed a strategic co-operation agreement with One to identify potential areas of partnership in energy and battery storage in the sultanate, Oman News Agency reported on Wednesday.

Does Oman's sovereign wealth fund have a strategic partnership with one?

Oman's sovereign wealth fund also signed a strategic co-operation agreement with One to identify potential areas of partnership in energy and battery storage in the sultanate, Oman News Agency reported on Wednesday. The financial value of the transaction was not disclosed.

What will Oman's new energy policy mean for the energy sector?

The move - a first in Oman's power sector - will help support the large-scale adoption of renewable energy resources for electricity generation, as well as accelerate the decarbonization of the electricity sector, according to a key executive of the state-owned entity - a member of Nama Group.

Does Oman have a hydrogen project?

Last year, Oman set up a state-owned company, Hydrogen Oman, to oversee the development of hydrogen projects in the country.

Is Oman the largest non-OPEC producer in the Middle East?

Oman, the largest non-Opec producer in the Middle East, has been investing heavily in sectors such as renewable energy and tourism in an effort to diversify its economy. The sultanate is on track to become one of the largest producers of hydrogen in the world by 2030, the IEA said in a June report.

How do energy storage systems work?

Energy storage systems currently in use around the world save energy in a variety of forms - chemical, kinetic, thermal and so on - and convert them back to electricity or other useful forms. In Pumped Hydroelectric Storage, for example, the system consists of two reservoirs maintained at different heights.

The Oman Power and Water Procurement Company (OPWP), the single buyer of electricity and water output in the Sultanate of Oman, says it plans to study options for energy storage development as part of the nation's transition to a greener and sustainable future.

1 ?· MUSCAT: A new solar PV based Independent Power Project (IPP), set to come up at Ibri in Al Dhahirah Governorate, is expected to be integrated with utility-scale battery storage in a first for Oman's rapidly expanding renewable energy sector. Battery storage allows solar power plants to store excess energy generated during the day for use at ...

As part of the investment, OIA and ONE signed a strategic collaboration agreement to explore potential areas of collaboration in energy storage and battery manufacturing in Oman. ONE was founded in 2020 as a battery company with the aim of accelerating the world's progress towards net zero emissions by doubling the range of electric vehicles ...
