Coming as 25 FT long rails with all components pre-assembled, Opsun SunRail(TM) racking system is the fastest to deploy on the roof. It allows saving 20% to 30% of the time you would need to install standard PV support systems. Less time on the roof, faster project delivery and commissioning make solar projects much more profitable.

29.25% of Puerto Rico residents are renters, potentially inclining towards self-monitored systems. Given the 87% of commuters, professional monitoring might offer valuable peace of mind.
