

Optiv energy Slovakia

The first battery gigafactory in Slovakia will be located in Surany on a 95-hectare area and will create thousands of jobs. In the initial development stage, it will have a capacity of 20 GWh with the further potential to reach a capacity of up to 40 GWh.

The Energy vertical is comprised of organizations dealing with the business and operations of coal, oil and gas, renewable energy, and uranium, among others. The Energy vertical is critical to the industrial operations of all first-world countries.

Optiv works with more than 450 world-class security technology partners. By putting you at the center of our unmatched ecosystem of people, products, partners and programs, we accelerate business progress like no other company can.
