How much money do Nigerians spend on electricity?

According to The Rural Electrification Agency (REA) of Nigeria, Nigerians and their businesses spend almost \$14 billion (?5trillion) annually on an inefficient generation that is expensive (\$0.40/kWh or more), of poor quality power, noisy, and polluting.

In the 1990s the Nigerian electricity system was failing to meet Nigeria's power needs, leading to the National Electric Power Policy of 2001, and several other reforms (KPMG, 2016). By the year 2000, a state-owned monopoly, the National Electric Power Authority (NEPA), was in charge of the generation, transmission, and distribution of electric ...
