British renewables developer Hive Energy has acquired four early-stage solar photovoltaic (PV) projects from Polish energy company T& T Proenergy as it looks to expand its European portfolio. The four sites will have a combined capacity of 272MW.

Hive Energy is a company focused on renewable energy development and the circular economy within the sustainable energy sector. The company's main offerings include the development of solar power projects, the production of green hydrogen, and initiatives for green ammonia, all aimed at creating a cleaner future through innovative green ...
