

Parameters of JA Solar 590W photovoltaic panel

What is a JA Solar jam72d40-590/lb-its?

The JA Solar JAM72D40-590/LB-ITS is a 590W n-type Double Glass Bifacial Solar Panel with a silver frame. Part of the Deep Blue 4.0 Series, the panel offers high power & efficiency, lower degradation and better low-light performance. Panels in this range are protected by a 12 year product warranty and a 30 year linear power output warranty.

What is included in the JA Solar installation manual?

Thank you for choosing JA SOLAR modules! This Installation Manual contains essential information for electrical and mechanical installation that you must know before handling, installing JA Solar Modules. This Manual also contains safety information you need to be familiar with.

How to install JA Solar modules?

JA solar recommends installing the modules with a tilt angle of at least 10 degrees, making it easier for dust to be washed off by rain. Ensure the installation method and supporting system of modules is strong enough to make the modules can withstand all the load conditions.

Do JA Solar modules corrode?

JA Solar modules have passed the IEC 61701 salt-mist, but galvanic corrosion can occur between the aluminum frame of the modules and mounting or grounding hardware if such hardware is comprised of dissimilar metals.

How to unpack JA Solar modules?

Store pallets in a ventilated, rain-proof and dry location until the modules are ready to be unpacked. Please unpack the package of JA Solar modules according to "JA Solar Modules Unpacking Instruction". Do not lift the modules by grasping the module's junction box or electrical leads in any condition.

Do JA Solar modules need a grounding conductor?

The grounding is only used on the framed bifacial modules. JA Solar modules use an anodic oxidized aluminum frame to resist corrosion. So the frame of modules must be connected to the equipment grounding conductor to prevent thunder and static hurt.

Photovoltaic panels 590W - Swiss Solar IBEX 156MHC-EiGER-570-590 FULL BLACK The Swiss Solar IBEX 156MHC-EiGER-570-590 FULL BLACK is a series of high-efficiency monocrystalline photovoltaic (PV) solar panels designed and ...

Product Features: Higher power generation - better LCOE. N-type with very low LID. Better weak illumination response. Better temperature coefficient. Comes with a 12-year product warrant ...

Parameters of JA Solar 590W photovoltaic panel

Product Description. The JA Solar DeepBlue 4.0 series, equipped with BYCIUM + Cell technology, offers a range of advanced features that make it a top choice for solar energy solutions. With its high-density encapsulation technology, this ...

We specialize in solar products for more than 10 years, with annual sales of more than 5GW, selling original Tier 1 brand solar panels of Trina solar, LONGi solar, Jinko solar, JA solar, TW ...

JA Solar posiada globalny zasięg, obsługując rynek fotowoltaiki na całym świecie, a jednocześnie aktywnie angażuje się w rozwój zrównoważonych rozwiązań energetycznych. Dzięki ...

The DeepBlue 3.0 Light line of panels from JA Solar are the smallest panels of the bunch and have the lowest wattage per panel, coming in between 380 and 415 watts. Generally speaking, JA Solar panels are larger ...

The JA Solar 590W Solar Panel is Assembled with multi-busbar PERC Cells, the half cell configuration of the modules offers the advantages of high power output, better temperature ...
