What is a power rail PV module mounting system?

The PV module mounting system engineered to reduce installation costs and provide maximum strength for parallel-to-roof, tilt up, or open structure mounting applications. The POWER RAIL mounting system is designed with the professional PV solar installer in mind.

What is a solar balcony bracket?

SOEASY (XIAMEN) PHOTOVOLTAIC TECHNOLOGY CO.,LTD. With the rise of solar balcony, SOEASY has developed mounting brackets for different types of solar modules. This is a balcony bracket specially designed for installing flexible module.

Does aluminum alloy need aging heat treatment for solar photovoltaic brackets?

The commonly used aluminum alloy series for solar photovoltaic brackets need to undergo aging heat treatment to achieve the required strength. China Aluminum strictly controls the solution treatment and aging heat treatment process to ensure the required strength of the aluminum alloy brackets.

What is a fixed balcony solar mounting structure?

The fixed balcony solar mounting structure is the most simple direct system in the SOEASY balcony support series. A photovoltaic module can be installed with only 4 micro-supports. The modules are fixed parallel to the balcony fence, which can easily meet the installation and construction of general apartment household photovoltaic systems.

What types of solar panels does Chalco stock?

Chalco stock various aluminum extruded solar panel frames and photovoltaic support aluminum alloys, with a variety of finishes to choose from. If the existing products are not suitable for your needs, we can also customize them according to customer requirements.

How to install a photovoltaic system on a balcony fence?

By connecting the photovoltaic modules with zinc-aluminum-magnesium hooks and hanging and fixing the modules on the balcony fence, the system is easy to build. It can meet the installation and construction of household photovoltaic systems in general apartments.
