

How to create a high-converting solar sales pitch?

First things first, you have to understand your audience to create a high-converting solar sales pitch. Then build an ideal customer profile (ICP) to match. In the solar industry, ICPs are normally: Homeowners: Since renters don't own the homes they live in, they won't want to talk to you about solar. Focus your energy on homeowners.

What are the best solar sales best practices?

The answer is to implement the solar sales best practices we outline in this article. Once you do, you'll be able to take advantage of the massive opportunity that the solar industry represents and shoot past your competitors. One of the top best practices is to invest in technology solutions.

How do you make solar sales successful?

To make solar sales efforts successful, first, you need to create a desire among consumers for the product. As a solar installer, you should understand the following: Gauge the perception of consumers about solar energy and products and chalk out action plans to improve those perceptions.

Why are solar sales pitches so boring?

Hopefully, the answer is because your company offers some kind of unique value, such as: Take a moment to think about your company and the ways in which it outperforms the competition. Then use these things in your solar sales pitch. We're just going to say it: most solar sales pitch scripts are boring. Why?
