

# Photovoltaic panels installed on the roof as a canopy

Can I use a canopy with a solar panel?

Canopies are the perfect base for solar panels, allowing you to generate energy and provide shade and shelter at the same time. We have four canopy frames which can be paired with most solar panels. We will work with your solar panel provider to select the most suitable canopy for the panels.

Are solar canopies a good idea?

Solar canopies generate solar power, which reduces energy costs, while allowing functional use of the space underneath. Solar canopies can, however, take many other forms, including commercial solar carports (the most common use), residential solar carports, solar pergolas, solar gazebos, and even solar patio covers.

What is a solar canopy?

A solar canopy is a custom-built outdoor structure designed to hold an overhanging solar array. They allow for distributed solar energy generation, i.e. the production of solar electricity on-site. 'Solar canopy' is an umbrella term of sorts, as it is used to describe a number of different solar structures:

Should you install solar panels on your roof?

If you are unable to install solar panels onto your roof due to the direction of the building, or if shading is a problem, solar canopies are the perfect solution. They can be positioned specifically to enable you to soak up maximum solar energy for a greater saving on your energy bills.

How much does a Solar Canopy cost?

Solar canopies can, however, take many other forms, including commercial solar carports (the most common use), residential solar carports, solar pergolas, solar gazebos, and even solar patio covers. For a small to mid-sized home, a solar canopy will cost anywhere between \$5,000 and \$32,600. The final price depends on many factors.

Are solar parking canopies a good idea?

While solar parking canopies grab all the attention, they're not the only kind of solar canopy structure to consider. Solar pergolas, patio covers, and gazebos are solar canopy structures that work great in outdoor spaces like parks and backyard gardens.
