

Photovoltaic panels installed on the roof of a new residential area

Do you need planning permission to install solar panels on your roof?

An increasing number of people are investing in solar energy. More and more homes are having solar panels, or solar tiles, installed on their roofs. Of course, with such installations, the topic of planning permission and building regulations often comes to the surface.

Should solar panels be installed on a flat roof?

For this reason, solar panels on flat roofs often require planning permission. What's more, the installation should be planned so it minimises the visual impact on the house and local area, as far as possible. And solar panels should be removed if they're no longer in use. How many solar panels can I install on my roof?

How do I choose a solar panel for my roof?

Decide on how much of your electricity bills you want to cover with your solar panel usage -- this can be anything from 10-100%. Your decision will affect the system size and costs. Calculate how many solar panels fit your roof. An average solar panel takes about 1.44 m² of roof space. Don't forget to include at least 30 cm from the roof's edge.

Will homeowners be able to install rooftop solar panels more easily?

Homeowners will be able to install rooftop solar panels more easily without costly planning delays. This was published under the 2022 to 2024 Sunak Conservative government. Homes and businesses will be able to install rooftop solar panels more easily, under new rules announced today.

Can solar panels be installed on a combustible roof?

In general terms, solar panels should not be installed on combustible roofs unless some form of fire protection can be installed between the panels and the roof e.g. concrete panels or pebble ballast.

3. Location of solar panels

Can a solar panel be installed on a road?

There are a large number of formally approved solar panel installations in conservation areas, including on roofs that face the road. What you need to do is speak to your local council and let them know about your decision to install. Unless there is a valid reason to state otherwise, permission for the installation should be granted.
