Portable solar panels at Argos. Use the sun's power to charge your devices on the go with portable solar panels. Order online today for fast home delivery.

How much do portable solar panels cost?

Portable solar panels are less expensive than standard mounted solar panels. Most portable solar panels cost under £500, whereas fixed solar panels cost an average of £703 up front.. And since the typical three-bedroom house in the UK needs about 10 panels in its solar system, it typically ends up costing homeowners a total of £7,026.

Are portable solar panels worth it?

Sure, portable solar panels lack the oomph to power an entire home's electricity needs - traditional roof-mounted (or even ground-mounted) solar panels are best for that purpose - but as a guilt-free way of generating renewable energy, portable solar panels will be an excellent addition to your next excursion.

What are portable solar panels?

Portable solar panels are small, plug-in panels that you can take anywhere with you. Unlike mounted units, portable panels can't power an entire home, but can be used to charge small electrical appliances, such as phones, laptops, or even microwaves. There are typically two types of portable panels: flexible solar panels and rigid foldable ones.

How efficient are portable solar panels?

They're also more expensive. Generally, the type of portable solar panel governs its efficiency: flexible solar panels are around 10 to 15 per cent efficient, while their rigid counterparts have an efficiency of 15 to 20 per cent. Another aspect to think about is how durable your portable solar panels are.

How do I choose a portable solar panel?

When choosing a portable solar panel, it's a good idea to look at its efficiency rating- the best panels are over 20% efficient. You should also note the warranty period - typically 10 years - which is a guarantee of how long your solar panel will operate at maximum efficiency. How efficient are portable solar panels?
