Who is Probe Corporation?

Currently, the Probe Corporation and its subsidiaries are specialised industrial equipment suppliers, providing aftermarket support for global and local brands. Our trademarked Probe ranges, including Probe batteries, ProbeAir compressors and Probenergy alternative power solutions remain market leaders for all of SADC.

Who are probe industrial technologies?

Probe Industrial Technologies, Probenergy and Probe Integrated Mining Technologies (IMT) are specialised divisions of the integrated group. We supply and provide aftermarket support for leading global brands and our Probe ranges, including Probe batteries, ProbeAir compressors and Probenergy power solutions.

Who is probe integrated mining Technologies (IMT)?

Probe, established in 1963 by Francesco Rovelli, has developed into a diversified group powering the alternative energy, mining, automotive and industrial sectors in Southern Africa. Probe Industrial Technologies, Probenergy and Probe Integrated Mining Technologies (IMT) are specialised divisions of the integrated group.

Does probe have a mining division?

It is with these inclusions that Probe could service customers in Gerberha, Kariëga and Bloemfontein. In 2019, Probe's mining division had grown to the point of requiring its own division and formally separated from other divisions to concentrate Probe's efforts to service the mining industry.

Is probe EEA compliant?

Probe's BEE status meets the requirement of the South African BEE laws and we are EEA (Employment Equity) compliant. We are proud to be associated with Thesele Holdings, a reputable Private Equity Company () that holds a 49.95% share in Probe Group Holdings. Probe remains committed to transformation in South Africa.

Selecting the right inverter is crucial when it comes to renewable energy installations, especially in a country like South Africa, where electricity issues present unique challenges. With frequent power outages, surges and an unstable grid, the choice of inverter can mean the difference between prolonged reliability and premature failure.

We are a leading material handling equipment company in South Africa that is dedicated to enhancing the efficiency, effectiveness, and economy of our clients' businesses, through material handling solutions that make all the difference, and are developed against a background of exceptional industry experience, and a commitment to quality excellence.

Our products support and form an integral part of many other energy solutions as we work to provide the best solutions to power efficient business in Africa." Please see the full range of PROBENERGY products on show here. Register free for Power & Electricity World Africa Virtual 2020 <https://bit.ly/3nSZunv>

Most importantly, for the first time, we will be able to offer this and other products on a rent-to-own basis for the residential market, putting solar and standby power within reach of many more people. With Probe's extensive network and the simplicity of installation we look forward to offering the best solar solutions across South Africa."
