SOLAR PRO.

Rct power battery 11 5 Kosovo

Are RCT power batteries safe?

The RCT Power Battery excels at safety and in battery lifetime. The energy storage for solar electricity uses lithium iron phosphate battery cells that are considered to be among the safest lithium ion batteries.

What is a RCT Power Battery?

Get the most out of your photovoltaic system. Storage of generated solar energy is a key issue for owners of solar installations. The RCT Power Battery provides a particular safe and resource-conserving solution for the management of energy needs of residential homes and commercial buildings and facilities.

Why should you choose a high voltage battery from RCT power?

The high voltage battery from RCT Power guarantees highest efficiency and autonomy. The modular system can be upgraded and adapted to fit user requirements. Your system grows to accommodate new energy consuming appliances, e.g. an electric car. All our batteries are delivered in the elegant design that is typical for RCT Power.

The high voltage battery from RCT Power guarantees highest efficiency and autonomy. The modular system can be upgraded and adapted to fit user requirements. Your system grows to accommodate new energy consuming appliances, e.g. an electric car.

RCT RESS APP With the powerful RCT RESS App you can manage and control all functions of your storage system. Installation, maintenance and control are made easy. The App is a flexible tool and includes comprehensive data visualisation and various configuration options. POWER BATTERY $3.8 \mid 5.7 \mid 7.6 \mid 9.6 \mid 11.5$ POWER BATTERY $3.8 \mid 5.7 \mid 7.6 \mid 9.6 \mid 11.5$

FLEXIBLE AND UPGRADEABLE 2 - 6 battery stacks Usable capacity scalable in incrementes of 1.7 kWh Upgradeable Suitable for back-up systems SUSTAINABLE Lithium-iron-phosphate cell chemistry 10 years time value guarantee.

Modular battery storage system RCT Power Battery 11.5 The RCT battery is a resource-saving and safe solution for use in private residential buildings. The modular system guarantees flexible retrofitting, thus allowing optimal adaptation to the changes and requirements of the user.

With the integrated high voltage battery connection and two MPP trackers, a flexible battery storage system can be set up with the RCT Power Storage. The battery is a modular plug system. With a weight of 25 kg per battery module, it is easy to transport and install.
