

# Remove the photovoltaic panels and install them again

Should I remove or reinstall my solar panels?

Solar removal and reinstallation may also be necessary when you're moving to a new home, and you wish to relocate your system. If that is the case, make sure you have a trained installer handle the entire job so it's done safely and securely to protect your investment. Can I Remove and Reinstall My Solar Panels Myself?

Do you need a solar panel removal service?

Considering a solar panel system is a large investment, it makes sense to only let experienced solar installers handle your solar panels and perform this solar panel removal service. Moreover, removing and reinstalling solar panels involves a complicated permitting process that's best navigated by a qualified solar installer.

Can a solar panel be removed from a roof?

Thus, it's best to have your solar panel system removed by trained solar professionals who have the knowledge and equipment to do the job right. While repairing many parts of your solar power system can be done on the roof, it is often much safer to do this work after the panels are removed.

How long does it take to remove solar panels?

Unless you have large or custom solar arrays on your roof, it should take a day to remove the panels and another day to reinstall them. Then you have to factor in the amount of time needed to do the repairs, whether it's the roof, your solar panel system, or whatever else you might need.

How can Palmetto help you remove and reinstall solar panels?

At Palmetto, our solar professionals are here to help you remove and reinstall solar panels. They can review your situation, provide helpful guidance to ensure your panels are cared for, take care of fixing your home and panels, and make sure your solar power system is reinstalled properly.

How much does it cost to remove and reinstall solar panels?

For example, Palmetto typically charges \$225 per panel to remove and reinstall solar panels. While the cost to remove and reinstall solar panels depends on the solar company you choose, each company should be able to quote a base price for the work. Prepare to adjust your budget if your roof requires repairs before the panels can be reinstalled.
