

Ric energy group Thailand

Established in 2005, Madrid-based RIC Energy Group focuses on utility-scale development of solar, hydrogen and energy storage projects. The firm not only develops projects in Spain, but also in the US, Africa and India.

At RIC Energy we participate in the development, construction and operation phases of more than 19,000 MW of renewable projects on four continents. We promote sustainable initiatives with a positive environmental impact in 11 countries, generate employment and contribute to the decarbonization of mobility and industry.

We specialize in large-scale grid-connected storage projects that will enable the penetration of renewable energy projects and contribute to the stability of the Spanish electricity grid. Our projects offer an innovative technological solution aligned with the most demanding environmental and territorial requirements.

RIC Energy is an independent group and a leader in the development of multi-technology renewable energy projects. With a clear strategy focused on establishing itself as a selective Independent Power Producer (IPP) in mature technologies and markets, the company operates across four continents with a development and construction portfolio ...

We are a global company specialized in the development of photovoltaic projects, with experience in construction, operation and maintenance, and financial structuring. Founded in 2005 in Spain, we were pioneers in the Spanish solar ...

We are a global company specialized in the development of photovoltaic projects, with experience in construction, operation and maintenance, and financial structuring. Founded in 2005 in Spain, we were pioneers in the Spanish solar PV market.
