

Ruipu New Energy Energy Storage Planning Announcement

When will ruipu Lanjun start construction?

On June 21, 2022, Ruipu Lanjun (Ruipu Energy) started construction of a 30GWh power and energy storage lithium-ion battery and system project per year. The first phase of the project has a planned construction period of 300 days and is expected to be officially put into operation in October 2023.

What is ruipu Lanjun 30gwh power and energy storage lithium-ion battery project?

The Ruipu Lanjun 30GWh power and energy storage lithium-ion battery and system project will be constructed in two phases. The first phase is planned to have an annual production capacity of 15GWh, and the second phase is expected to start construction in 2022 and be put into operation in 2024.

Will ruipu Lanjun build a high-end lithium-ion battery?

It will build a high-end power and energy storage lithium-ion battery with an annual output of 30GWh and a supporting manufacturing base for upstream and downstream industries. The Ruipu Lanjun 30GWh power and energy storage lithium-ion battery and system project will be constructed in two phases.

What is Rept's new energy storage product roadmap in Q4 2021?

REPT has broken through in battery energy density regarding LFP 200Wh/kg and NCM 300Wh/kg and a new generation energy storage product roadmap will be launched in Q4 2021 and will continue to ensure to make every battery with passion and help people enjoy the benefits of green power. SOURCE Ruipu Energy Co., Ltd.

What is ruipu Lanjun project?

The project is the Ruipu Lanjun South China production base with a total investment of about 10.3 billion yuan. It will build a high-end power and energy storage lithium-ion battery with an annual output of 30GWh and a supporting manufacturing base for upstream and downstream industries.

When will Xinyang industrial park be built?

The first phase of the project has a planned construction period of 300 days and is expected to be officially put into operation in October 2023. This is another 10-billion-dollar project in the Shishan area of the new industrial park in the Northern Warfare officially kicked off after Xinyang Technology.

On June 21, 2022, Ruipu Lanjun (Ruipu Energy) started construction of a 30GWh power and energy storage lithium-ion battery and system project per year. The first phase of the project has a planned construction period of 300 days and is ...

Ruipu Lanjun said that according to the development trend of the new energy industry, in the future, the company will also plan to expand production by 50GWh on the basis of the original ...
