

Rural photovoltaic panel rental scam revealed

Are solar panels a scam?

One of the first signs of a potential scam is unsolicited approaches or door-to-door sales. A reputable solar panel company does not typically use these tactics and instead is more likely to rely on referrals or marketing campaigns. As we mentioned before, another red flag is excessive discounts or too-good-to-be-true offers.

Did a company defraud solar panel owners?

A company which defrauded solar panel owners by selling them goods and services they did not need has been ordered to pay back its victims hundreds of thousands of pounds.

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

Are You at risk of a misleading solar panel scheme?

Thousands of households are at risk of falling victim to misleading solar panel schemes which are up by 50 per cent over the last year, data from Action Fraud reveals.

Are You at risk of a dodgy solar panel scheme?

Thousands of households are at risk of falling victim to dodgy solar panel schemes which have risen by 50 per cent over the last year, data from Action Fraud reveals. Uncertainty over high energy prices, combined with a desire to cut carbon emissions, means many homeowners in the UK are considering fitting solar panels as an option.

Is my solar panel installer going out of business?

If you're not sure whether your solar panel installer has gone out of business, and a cold caller is insisting they are taking over, don't take their word for it. In this instance, it turned out to be a scam. Instead, check your original installer's website and try the contact details you were given when your panels were installed.
