

# Rural spark solar Congo Republic

Congo has the natural assets required for solar energy generation, with year-round sunshine, especially in the northern regions. The opportunity to use solar energy for both urban and rural electrification is enormous given that the country has one of the lowest rates of electrification in the world.

Oikocredit's support will allow Spark to reach people in low-income and rural areas of the Democratic Republic of Congo, Kenya, Malawi, Liberia, Mali, Niger, Nigeria, Senegal, Uganda, ...
