

Saint Pierre and Miquelon as solar energy

New construction in Saint Pierre and Miquelon adheres to strict energy efficiency standards, with incentives for buildings that incorporate passive solar design, improved insulation, and efficient heating systems.

Convinced that the energy transition of a territory cannot succeed without strong conviction and commitment from local stakeholders, EDF Renewables has set up a dialogue with the inhabitants of Saint-Pierre-et-Miquelon in order to understand the perceptions, questions and the population's expectations regarding renewable energies.

The total phase of this solar eclipse was not visible in Saint-Pierre, but it could be observed there as a partial solar eclipse. The Moon covered a large portion of the Sun, so this was a spectacular sight.

François Le Naour, chef de projet transition énergétique, est de passage à Saint-Pierre-et-Miquelon. Une mission pour dresser un premier bilan de ce qui existe déjà; en matière d'énergies ...
