

Seychelles copper coast renewables

Who is Copper Coast renewables?

Copper Coast Renewables was established in 2023 with the goal of helping businesses strive towards Net-Zero using innovative renewable energy technologies. We are dedicated to leading the charge towards a sustainable future by harnessing the power of renewable energy solutions.

Is Copper Coast Renewables a good EPC company?

Build Copper Coast Renewables into one of the best renewable energy EPC companies in Ireland and be able to have that work/life balance with my family, we're a bit away yet but we'll get there. How do you switch off?

How is electricity produced in Seychelles?

Electricity for the island nation of Seychelles is primarily produced by diesel generators which must import their fuel (69 MW on Mahe and 12 MW on Praslin). Energy policy calls for 15% renewables by 2030. In June 2013, the first wind farm in Seychelles was officially inaugurated.

What is Seychelles' energy policy?

Energy policy calls for 15% renewables by 2030. In June 2013, the first wind farm in Seychelles was officially inaugurated. This 6 MW power plant can produce up to 2% of the Seychelles' power and is located on Mahé Island. It is expected that the wind farm will replace 1.6 million litres of diesel fuel annually.

Who funded the Seychelles wind farm project?

The wind farm project was fully funded by the Abu Dhabi government through a \$28 Million grant to the Seychelles. The Abu Dhabi government appointed Masdar as project manager.

At Copper Coast Renewables, we are dedicated to ushering in a sustainable future through innovative renewable energy solutions. Our focus on Solar, Battery, and Electric Vehicle (EV) technologies reflects our commitment to reducing carbon emissions, promoting energy independence, and driving environmental stewardship.
