

It is in this framework that this study evaluates the integration of solar PV into the Southern Interconnected Grid of Cameroon using dynamic analysis. The ETAP tool was used in developing the...

The SIG is a power system extended today to seven regions of Cameroon since its interconnection with the former Eastern Isolated Grid (EIG) through the 225 kV transmission line between Ahala (centre region) and Mampang (eastern region).

Combining solar, storage and EV charging, Sigenergy offers an all-in-one Solar Energy System for Home that helps you lower utility bills and reliance on the grid. As a state-of-the-art home energy management system, Sigenergy Home ESS is versatile and scalable to meet every need.
