

Smart home solar panels Dominica

Invest in a home photovoltaic system and enjoy energy independence, savings, and environmental protection. A home photovoltaic system is a set of solar panels that convert solar radiation into electricity. You can choose an off-grid system, which is not connected to the power grid, but to batteries that store excess energy.

Dominica has a very high solar potential and set a renewable energy mix target of 100% by 2035. Presently Dominica's energy mix is comprised of 37% renewable energy on the public grid. Its electrical demand peaks at 13MW and its electricity prices are high relative to ...
