What is the world's most powerful water gun?

If you're more of a big kid and want, officially, the world's most powerful water gun then you need to buy a SpyraTwo. This water blaster comes in two colourways, blue and red, and features a state-of-the-art battery powered firing mechanism and maximum range of 50 feet.

Is the Super Soaker a water gun?

The original Super Soaker is back, baby! In a slightly tweaked new form, but still with that all-important green removable bottle. This is also a water gun that doesn't just rely on pumping - you pump to prime it, and then pull the trigger to actually fire, which is more convenient than pumping alone.

Which water gun is best?

For those who like to battle up close, the Twister is ideal - it fires a jet of water in a double helix pattern, so it's near-impossible to keep out of the way. Read more 5. Super Soaker Soakzooka Best premium water gun If you're fed up of having to reload your water pistol on the regular, the Soakzooka will be your jam.

What is the best water gun for a pool?

Add in the benefit of the PowerShot aspect and the Spyra Two, available in either red or blue, is a shoo-in for best tactical yard-based water gun. This category nearly features two winners, but I dropped the Temi water gun because although it's great for pools, it pretty much requires a pool to be used.

How much does a water gun cost?

Currently, the Spyra Two is the most expensive water gun on the retail market at \$149 (plus shipping). Overall, sub-\$20 offerings are the cheapest water guns, \$20s in the medium range, and the more expensive water guns start in the \$30s. Which water gun has the longest range?
