Do solar panels cause problems?

Thankfully, the rate of problems arising from solar panels is fairly low. Some 68% of solar panel owners told us they'd had no technical issues with their solar pv systems since they were installed. And nearly half of owners had done no maintenance at all on their solar panel system since it was fitted.

What should I do if my solar meter is faulty?

Contact your solar panel installer or a solar panel maintenance professional. If your generation meter is replaced, make sure you get a letter from the installer stating what they have done and that they changed the meter because it was faulty. The paperwork should also state the model and serial numbers of the old and new meters.
