

Solar panel package price Mongolia

The existing panels were Back 40 Solar and the new panels were Rich Solar. They both can be attached to the mount, however their dimensions are not the same on length or width. And that caused our problem. The mount (VC2-HR8) is designed to hold 16 x 100 watt panels. However, rail length is specifically for Back 40 panels.

Among the services we offer enterprises, organizations, and households are calculations and studies for the construction of energy-efficient homes and buildings suitable for Mongolia's extreme climate, as well as the installation of renewable energy sources that do not harm the environment, and providing high-quality consulting services.
