Investing in a home photovoltaic system off-grid with Lifepo4 batteries is profitable and pays off quickly. In the Dominican Republic there is a lot of sun all year round, so you can produce a lot of energy from your panels. You can also benefit from subsidies or tax breaks for purchasing and installing the system.

The so-called RD 100% Renewable Coalition, made up of cooperatives, companies, and entities linked to the environment, announced yesterday a plan for installing solar panels in 180,000 homes and small businesses throughout the country to generate 600 megawatts of electricity in three years.

I saw this listing that caught my attention due to the fairly low price per watt. 390W @ \$79.99 each with a 30 panel minimum purchase = \$0.205/W. I did not recognize the company so a google search indicates they are from Taiwan. Google also says only .5% of solar panels are made in Taiwan I don't know anything about the manufacturer or the seller.
