How much power does a portable solar generator have?

At 518 WH/140000mAh,3.7V of energy capacity, Portable Solar Generator Model ST500 is a comprehensive power backup system. With 4 USB output, you can easily power up the drill machines, phones, tablets, laptops, or any other small devices while enjoying your outdoor trip.

How long does a portable solar generator last?

1 Year against any manufacturing defect. At 518 WH/140000mAh,3.7V of energy capacity, Portable Solar Generator Model ST500 is a comprehensive power backup system. With 4 USB output, you can easily power up the drill machines, phones, tablets, laptops, or any other small devices while enjoying your outdoor trip.

Can a solar generator power an RV?

In order to supply power to a wide range of devices, solar generators offer a variety of AC outlets, 12-volt DC ports, a standard car port and 5521 barrel-type ports, in addition to Anderson power ports. The more sophisticated, higher-power generators may also have 125-volt, 30-amp outlets for powering an RV.

Is a solar generator a 'generator'?

First off, a solar generator isn't really a "generator." It's a large rechargeable battery pack -- not that different from the devices you might carry around to charge your phone while traveling -- that integrates a UPS with surge protection and an inverter and line conditioner to power your AC devices.

How many solar generators are there?

We tested 19 solar generators to find the best and most versatile devices that can provide emergency backup power and fuel off-grid activities.

How do I choose the best solar generator?

To choose the best solar generator, we tested 19 devices in the hot Florida sun to determine which device could reliably provide the most power with the least fuss. We considered factors such as portability, ease of setup, price, industrial design, technology and innovation when making our final selections.
