

Discover the asecos ION-LINE lithium cabinets for the safe storage and charging of lithium-ion batteries in a fire-protected environment. The ION-LINE cabinet models are specifically designed to meet the highest safety standards. They offer certified fire protection with a 90-minute fire resistance rating from the inside out and outside in.

The Internet country code top-level domain (ccTLD) for South Georgia and the South Sandwich Islands is .gs. The parts of the islands that are not permanently covered in snow or ice are part of the Scotia Sea Islands tundra ecoregion.

The United Kingdom claimed sovereignty over South Georgia in 1775 and the South Sandwich Islands in 1908. The territory of "South Georgia and the South Sandwich Islands" was formed in 1985; previously, it had been governed as part of the Falkland Islands Dependencies.

South Georgia and the South Sandwich Islands are a collection of islands in the South Atlantic Ocean. Most of the islands, rising steeply from the sea, are rugged and mountainous. At higher elevations, the islands are permanently covered with ice and snow.

In 1985, South Georgia and the South Sandwich Islands ceased to be administered as a Falkland Islands Dependency and became a separate territory. The King Edward Point base, which had become a small military garrison after the Falklands War, returned to civilian use in 2001 and is now operated by the British Antarctic Survey.
