

Sri Lanka coolspring energies limited

Generating sustainable energy using natural resources, Eco Power Holdings is the largest small hydropower producer in Sri Lanka. Eco Power is dedicated to designing, constructing, owning, operating and investing in high quality renewable energy projects in an environmentally and socially responsible manner.

Sri Lanka Energies Private Limited (SLE) was established in 2012 as a wholly owned subsidiary of the Ceylon Electricity Board (CEB). This corporation primarily focuses on renewable energy project building, operation, and maintenance, and serves as CEB's accessory manufacturing arm, representing the Sri Lankan government (GOSL).

By manufacturing in Sri Lanka, we tap into amazing talent and keep costs down. We have partnered with some of the best minds in energy storage from around the world - because great ideas can come from anywhere, and the best solutions come from working together. Our vision is to make clean energy is accessible to everyone, everywhere.

Our team is made up of dedicated, motivated and highly driven professionals all with extensive experience in the oil and gas industry. Management recognizes that our operations impact a diverse group of stakeholders including shareholders, financial institutions, customers, suppliers, our employees and the communities in which we operate.

Our long-term goal is to be a fully integrated energy company that caters to the ever-increasing needs of the upstream, downstream, and midstream oil and gas industry within and beyond the shores of Africa with its own cargo, using its own vessels and servicing its ...

Coolspring Energies Limited is one of Africa's fastest growing independent energy and commodity trading company with operations spanning seven continents. The company was incorporated in 2016 in direct response to the emerging trends in the dynamic oil ...
