

St Kitts and Nevis solar energy funding

Does St Kitts and Nevis have a national energy policy?

Yes, St. Kitts and Nevis has a National Energy Policy (NEP). The key provisions of this policy include connecting large-scale independent power providers and many distributed renewable energy systems to the electrical grid. Not all generation is made publically available; this chart provides known and referenceable data.

How much solar energy does St Kitts use?

In St. Kitts and Nevis, the solar resource averages 5 kWh per square meter. Solar energy is already being used for grid-powered induction lighting and street lights along roadways. A 7 MW waste-to-energy power plant is planned to come online on St. Kitts in 2015.

How much does electricity cost in St Kitts & Nevis?

The electricity rates in the Federation of St. Christopher (St. Kitts) and Nevis are \$0.26 per kilowatt-hour (kWh). This is lower than the Caribbean regional average of \$0.33/kWh.

How much energy is lost in St Kitts & Nevis?

Reports indicate that in St. Kitts and Nevis, higher losses are largely attributable to nontechnical losses such as unmetered consumption, leading to losses that are higher than the U.S. Energy Information Administration's average transmission and distribution loss of 6%. By comparison, the U.S. Energy Information Administration reports an average transmission and distribution loss of 6%.

The Government of St. Kitts and Nevis, along with SKELEC, the state-owned St. Kitts Electricity Company Ltd, have executed an amended Power Purchase Agreement (PPA) with SOLEC Power Ltd, a subsidiary JV of Leclanché, for the solar photovoltaic and battery storage project located in Basseterre.

Once online, the solar-plus-storage system will operate under a 20-year power purchase agreement (PPA) with the state-owned St. Kitts Electric Company (SKELEC), charging a flat rate for the entire period.

This document presents St. Kitts and Nevis' Energy Report Card (ERC) for 2021. The ERC provides an overview of the energy sector performance in St. Kitts and Nevis. The . ERC also includes energy efficiency, technical assistance, workforce, training and capacity . building information, subject to the availability of data.

BASSETTERRE, ST KITTS, 9 December 2024 (PMO) -- The Government of St. Kitts and Nevis and the St. Kitts Electricity Company Ltd (SKELEC) have terminated the Renegotiated Power Purchase Agreement (PPA) with SOLEC Power Ltd (SOLEC) for the construction of a Solar PV and Battery Energy Storage Project. This decision follows the ...
