

# Storing power Falkland Islands

Does the Falklands need a new wind farm?

But the Falklands feel it is not enough and besides the current wind farm is reaching its renewal date. No wonder then that notice has been given of the planning applications submitted for the Farm Expansion of Sand Bay Wind Farm to include 3 by E70 Enercon wind energy converters and battery storage. FIG and c/o Glenn figure as the applicant.

What happened to MercoPress Falklands power station?

MercoPress Falklands New Power Station project in Stanley to begin, end of unplanned power cuts? The current Power Station is nearing the end of its life and the replacement has been a key priority for numerous Assemblies.

Where can I find a plan for the Falkland Islands?

FIG and c/o Glenn figure as the applicant. The plans and details can be viewed at the Planning Office, Secretariat, Stanley and on the Falkland Islands Government Planning & Building Services Facebook page. Anyone wishing to comment on these applications must do so in writing, to the Planning Officer, by 2 February 2024.

We supported an MOD contractor who was working on an electricity grid at an airbase in the Falkland Islands. Temporary power support was required while 39 x 11kV substations were being upgraded on the airbase. The key requirement was that the generators needed to be robust and reliable, as any issues would be difficult to fix, due to limited ...

Although this and the new power station are only at the planning stages, the Falkland Islands Government (FIG) has implemented other solutions to reduce reliance on solid fuels. The Director of Public Works, Colin Summers, says the process of making government homes more energy efficient has been going on for over ten years.

Following approval at Executive Council on Tuesday 25 June, the Falkland Islands Government Public Works Department can now proceed with the final design and delivery program for the New Power ...

## Storing power Falkland Islands

CONCERNS were raised by several Members of the Falkland Islands Legislative Assembly at Thursday's meeting of the Assembly following an update by MLA Peter Biggs on progress surrounding the new power station project, in which he spoke simultaneously of a 24-month delivery phase, and a goal of completion by December 2025.

Although this and the new power station are only at the planning stages, the Falkland Islands Government (FIG) has implemented other solutions to reduce reliance on solid fuels. The Director of Public Works, Colin ...

The expansion of Sand Bay Wind Farm plans to include 3 by E70 Enercon wind energy converters and battery storage. The Falklands Islands have invested heavily in green, renewable energy and ...

What is the Focus of the Falkland Islands' Energy Transition by 2045? Our focus is on: o providing energy independence and security to meet future demand, by replacing existing infrastructure, such as the aging power station, while o continuing to move away from fossil fuel combustion to cleaner energy sources, by increasing the

Falklands officials predict that the 6 wind turbines will displace 40% of imported fuel and supply 40% of total electricity generated on the Falkland Islands. The UK Government has a goal for 20% of electricity in the UK to come from renewable energy by 2020.

There are now in excess of 100 x SD3 wind turbines on the islands, widely regarded as the largest off-grid small scale wind turbine fleet in the world - providing 24 hour power to over 85% of the islands farms and rural dwellings.

The Power and Electrical Section have 22 staff, made up of management, stores personnel, five mechanical staff, six electrical staff and seven power station operators who work a shift system to permanently man the control room 24 hours a day. Maintenance of the wind turbines is shared ...
