

Sunshade cloth on top of energy storage cabinet

Can a shade cloth canopy fit a plot?

This canopy can be sized to fit any plot you have. Shade levels can also be modified to help create deep shade for plants that do not love direct sun. You can also expand the canopy by adding more frame pieces if you need to make it larger or sturdier. Shade cloth canopies are a great way to protect your garden.

What is an alternative garden sunshade for a patio cover?

"If you're on the hunt for an alternative garden sunshade for your patio cover ideas, consider a sail canopy. Also called shade sails, sail canopies are large fabric canopies that are secured above your space at several anchor points and stretched taut to shield the area below from the sun," says Andrew White.

What is a sunshade made of?

It's the ideal sunshade that can be used in any outdoor spaces such as your garden, terrace, playground or balcony. The sun sail, made from 100% HDPE (high-density polyethylene), protects you from direct sunlight, allows enough wind and is water permeable. The HDPE is specially treated, so it is mould resistant and UV-resistant.
