

Switzerland sbb energy s a

SBB's strategy also centres around the ambition to be exemplary in all aspects of sustainability and to be a railway by the people for the people: for passengers, employees and society - for the whole of Switzerland. This results in three main strategies of SBB's commitment to sustainability: We are kind to the climate and the environment.

Based on findings from winter 2022/23 with the threat of an energy shortage and sharp price fluctuations on the energy market, SBB drew up a new energy strategy. SBB aims to secure coverage of 95% of rail power requirements during the winter half-year long-term by 2030, ensuring greater independence from the electricity market.

Firma SBB ENERGY S.A. dawniej Remak-Rozruch S.A. od ponad 20 lat prowadzi dzialalnosc w sektorze energetyki i przemyslu, wykonujac uslugi w zakresie rozruchów, montazy i róznego rodzaju prac specjalistycznych.

Electrical power plays a vital role for SBB - whether it is traction current that flows through the overhead lines, or domestic electricity to supply stations, office buildings and shops. Without power no trains can run and stations remain in darkness.
