

The price of Trina Solar panels

What is Trina Solar?

Trina solar produces a large range of solar panels for residential, commercial and utility-scale installations, incorporating many of the latest cell technologies including bifacial, half-cell, dual glass, PERC, and more recently the advanced N-type TOPCon monocrystalline cells.

Does Trina Solar offer a warranty?

Trina Solar offers the Vertex S panels which are designed for residential and commercial rooftops. Most Trina Solar Panels have a standard 15-product warranty and 25-year performance warranty offered on the new generation bifacial and Vertex panels. To see pricing and make purchases, please register or sign in .

How efficient are Trina Solar panels?

The panels feature a maximum power rating of 450W and a maximum efficiency of 22.5%, which is on par with some of the most efficient solar panels available. To achieve such high power and efficiency in a compact-sized panel, Trina used their latest N-Type TOPCon cell technology (named PACO) along with high-density cells and multi-busbars.

How much does Trina Solar cost?

But if you're looking to install the best of the best, or you're trying to keep your costs as low as possible, Trina Solar isn't the best brand to go with. \$2.80 per watt on average, based on more than 10,000 real-world quotes on the EnergySage Marketplace in the second half of 2023.

Is Trina Solar better than SunPower?

Overall, Trina Solar offers above-average solar panels at a below-average price. While they may not be as efficient as SunPower, they're not too far behind. Looking at the table above, Trina Solar's Vertex S+ panel is 1.2% less efficient but about 20% cheaper per watt than its SunPower counterpart.

Where are Trina Solar panels sold?

Its products have power outputs ranging from 170W to 290W. Sales and marketing offices cover Asia, Europe and North-America, and its products are sold in all major PV markets worldwide, such as Germany, Italy, USA, France, and Japan. Why choose Trina Solar Panels for your UK home?
